Do you live along a stream or lake in the Neshanic River Watershed? If so, please identify. Feel free to comment on past and current conditions of the waterway or impoundment.

Please list the top environmental concerns facing your watershed – be as specific or general as necessary.

Are there specific areas of concern that you would like us to be aware of in improving watershed management for your area? These issues may include flooding, failing stormwater infrastructure, severe bank erosion, etc. If referring to a location, please use street intersections or landmarks.

List any groups currently working on water quality improvements in your drainage area. If possible, please include a short description of their efforts.

Do you have or know of any data collected within the watershed? This could be for GIS, water quality information, or physical assessment data.
